CANADA MEDICAL

Letter from the President

Dear Friends,

For over 30 years, Canada Medical has partnered with thousands of healthcare professionals and institutions with the goal of increasing the quality of patient care by reducing the cost of their medical supply and equipment requirements without impacting service. Our team's dedication to continuous improvement, quality and service enables Canada Medical to serve our customers year after year.

At our core, we are committed to:
- Distributing branded medical supply merchandise to our loyal customers in our markets
- Servicing our customers' and vendors' needs while exceeding their expectations
- Differentiating ourselves by providing the best customer service to quality customers

Our habits of unrivalled customer service will continue, even as we push to find more ways to build in quality in a way the customer desires. Relationship building with our customers, our vendors, our teammates and the communities we are a part of has been and will continue to be part of what differentiates us from our competition.

We have also realigned our company structure to a team-based model, working to continuously improve our distribution work flow. Our priority is to continuously improve our service to our customers and vendors while continuing to build on our knowledge and experience.

We strive to be the company that best understands and satisfies the products and services of the medical supply industry.

We look forward to partnering with you and your organization in the future.

Sincerely,
Carla Rodych

RITTER® 204 MANUAL EXAMINATION TABLE

What makes Ritter the most purchased brand of exam tables in the industry? It's our willingness to research, study and listen so we can meet your needs—and the needs of your patients. If you need an exam table with easy access for patients to make them feel secure, three side drawers for optimal supply management, modern styling to coordinate with your office and an additional weight capacity up to 500 pounds, the Ritter 204 Manual Exam Table is the examination table for you.

- One piece seamless drawers
- Stylish and easy to clean
- Removable top system
- Enlarged footstep
- Storage access and volume
- Seamless upholstered top
- Manual back with air spring assist

626 BARRIER-FREE® EXAMINATION CHAIR

The Midmark 626 is the first chair of its kind designed to promote proper patient positioning for a more accurate blood pressure measurement. Connect the IQvitals® device to the Midmark 626 Barrier-Free Exam Chair with the integrated IQscale® to weigh patients quickly and discreetly from the comfort of the exam chair. Then, send data to the EMR. The Midmark IQconnect® framework provides a seamless connection from your devices to your EMR system. In other words, it allows you to operate all of your devices and transfer data to the EMR from one, single pane of glass—your computer screen.

Standard Features:

- Clean Assist™ Roller System The retractable roller base allows you to easily and safely move the chair for cleaning.
- Hand and Foot Control
- Stirrups and Pelvic Tilt
- Drawer Heater
- Active Sensing Technology pauses table movement when disrupting impact is detected

- Quick Exam® and Return to Home Quick Exam elevates the chair to the exam position with one touch of the control, while Return to Home returns the chair to its home position
- Patient Weight Capacity: 650 lb
- 15.5" Low - 37" High

244 BARIATRIC EXAM TABLE

Barrier-Free® Accessibility - Safe and Efficient Care for your Patient

- 850lb Weight Capacity
- 18" Low Height. By lowering the seat to 18" from the floor, the Ritter 244 performs this sometimes difficult task. It becomes a very simple routine, requiring minimal assistance from you and your staff. The patient's dignity is maintained and the likelihood of injury is greatly reduced, providing efficient, effective patient care.
- 34" High Height - The Ritter 244 raises the seat to a height of 34", designed to bring the patient to you while helping to minimize the stress and strain on your back. By having the patient in the right position, the exam can be completed properly and efficiently

630 HUMANFORM™ PROCEDURES CHAIR

When performing in-office procedures, physicians need a table that can achieve proper medical positioning to ensure ready access to the patient and a clear view of the surgical site. The Midmark 630 HUMANFORM™ procedures tables gives physicians the flexibility to position patients where they need them for a wide range of procedures.

The Midmark 630 HUMANFORM™ procedures table is the next generation of procedures tables designed by the people who use them, not the technology behind them. The first of its kind, the Midmark 630 HUMANFORM™ procedures table is the new benchmark in patient and provide centered performance. Designed to move with the human body, this table enhances patient comfort while allowing physicians to remain in a proper working position throughout procedures.

Premium Comfort System utilizes unique contoured upholstery and an adjustable footrest to cradle the patient for a soothing, chair-like feel.
Barrier-Free® Design addresses the needs of a changing patient demographic with a best-in-class, 18" low seat height and 650lb weight capacity

5-LEG MOBILE INSTRUMENT STAND

- Adjustable height (28 - 48") for comfortable use while sitting or standing
- 1" (2.54cm) chrome plated steel tubing
- Stable five-leg 20" base
- Removable stainless steel tray: 12.5" x 19"
- 2" (5.08cm) dual wheel nylon

DUK4365

MAYO STAND WITH TRAY

Mayo Stands with adjustable height, and stainless steel tray.

DUK4368 ....Double Post
DUK4352 ....Single Post

STANDARD WHEELCHAIR WITH FIXED OR DESK ARMS

This affordable wheelchair also features dual axle positions that allow for varying seat-to-floor heights, a heavy-duty chrome-plated steel frame, solid snap-on tires, adjustable brakes, sealed bearing assemblies, ergonomic handles, and flame-retardant black naugahyde upholstery.

- Institutional tested durability & proven quality.
- Proprietary contact points are easy to clean & disinfect.
- Dual axle positions allow varying seat heights.
- Maximum weight capacity: 300 lbs (136 Kg).
- Latex free.

DRV700-625

TRANSPORT CHAIR

Anatomically correct armrest height along with heel loops on the easy adjust swing away footrests make it even more secure and comfortable to sit in. Comfort-grip™ wheels provide shock absorption, better brake performance and they're easier to clean.

- 19" Seat
- 300 lb Weight Capacity

DRV700-848

STRETCHERS

- Adjustable Height 76"x22"x16"-28.8" Made of high strength aluminum alloy thick wall pipes.
- Adjustable back
- Foldaway legs are controlled by the handles on both ends of the stretcher.
- The legs can be folded under the stretcher

DIAGNOSTICS

Welch Allyn® | **Hillrom™** | **Connex® VITAL SIGNS MONITOR**

Welch Allyn
Connex® Vital Signs Monitor 6000 Series

Experience accurate, automatic spot-check vitals and continuous monitoring sent to your EMR from the bedside to help support improved patient safety and clinical decisions.

The Connex Vital Signs Monitor represents the next generation in vital signs monitoring with an easy-to-use color touchscreen and advanced vital signs technology to monitor vitals, respiration and motion. Plus, EMR integration gives clinicians immediate access to the information they need—where and when they need it.

Connect to the future of vital signs today

Designed specifically for busy floors like yours to increase efficiency

> Captures both spot-check vitals and continuous monitoring
> EMR integration for accurate electronic vitals documentation
> Vivid color touchscreen simplifies training and operation
> Comprehensive point-of-care documentation including customizable data fields
> Advanced Patient ID including two-way name confirmation
> Patient data protection for HIPAA compliance
  • Protect patient identifiable information with customizable options like abbreviations
  • Allow automated deletion of patient data after sending to EMR
  • Apply rules to check record completeness before saving
> Easy-to-understand error messages for simple troubleshooting

Industry-leading parameters for accurate patient information

> SureBP® blood pressure technology
  • Adult, pediatric and neonatal blood pressure modes
  • Customizable blood pressure monitoring programs help nurses follow hospital protocol
  • 15-second readings for greater patient comfort
> SureTemp® Plus and/or Braun ThermoScan® PRO 6000 ear thermometry (optional—choose one or both)
> Masimo® or Nellcor® SpO_2 algorithms (optional)—both sensors and signal processing
> Masimo noninvasive continuous monitoring of total hemoglobin (optional)
> Manual measurements entry (weight, height, respiration rate, pain) and documentation of modifiers like body position and O_2 therapy
> Customizable documentation fields to fully document at the point of care

WELCH ALLYN® SPOT VITAL SIGNS® 4400 DEVICE

Features:
- SureBP technology can provide BP in only 15 seconds BP averaging to help ensure accurate hypertension detection and diagnosis
- SureTemp Plus Oral / Axillary Thermometry
- Option for Nonin® SpO2 technology
- 7" color touchscreen for a simplified workflow Options for documenting patient observations (i.e. Respiration Rate, BMI)
- EMR connectivity helps minimize documentation errors
- 8-hour Lithium ion battery to maximize time before recharging
- Each device ships with one adult blood pressure cuff

ProBP™ 2400 DIGITAL BP DEVICE

The Welch Allyn ProBP 2400 is not a typical electronic blood pressure device. It is an affordable, professional device that you can trust to accurately measure your patients' blood pressures despite many common underlying circumstances. The ProBP 2400 is specifically designed for practices like yours. It gives you the quality, durability and features you don't get from home blood pressure devices that are mainly designed for general household use, which some practices resort to because of cost. It provides you consistent technique that's not assured with manual blood pressure gauges. And it does so at a budget-friendly price that other professional blood pressure monitors with the same features don't offer.

Features

- More affordable than similarly featured professional blood pressure monitors
- 3-Reading Average Mode can give a broader view of patient's true blood pressure
- Irregular heartbeat detection provides data to help you make testing decisions
- Manual Mode allows it to serve as a digital gauge when auscultation is indicated
- Microprocessor-controlled deflation rate provides consistent technique
- Built-in folding handle allows you to carry it safely and comfortably
- Optional mobile stand makes transporting easy for maximum location flexibility
- Optional wall mount bracket ensures device is exactly where and when you need it

WEL2400 .... ProBP 2400 BP Unit with Adult & Large Adult Cuffs

*WELREUSE-12-2400* .... Blood Pressure Cuff, Large Adult (32 - 42cm)

Welch Allyn® | Hillrom™ Connex® SPOT MONITOR

The Connex® Spot Monitor features an easy-to-use, vivid touchscreen display and provides accurate vital signs measurement including blood pressure averaging, spot checking, interval monitoring and custom scoring across patient populations. The device connects wirelessly to your EMR and sends vitals to the patient chart from the point of care to help improve efficiency. Its upgradeable design and custom configurations include optional wall unit integration, industry-leading thermometry and pulse oximetry choices, connectivity and other mounting/mobility options. In addition, the Accessory Power Management Stand with WhisperDrive™ technology features additional power backup, providing up to 17 hours of on-time, alleviating the need to charge the monitor as frequently. Ships standard with one Adult and one Large Adult cuff.

Features

- SureBP® technology can provide BP in only 15 seconds
- Connex Scoring App calculator for custom protocols (e.g., NEWS, MEWS)
- BP averaging to help ensure accurate hypertension diagnosis
- Supports resident list workflows for long-term care settings
- SureTemp® Plus or Braun ThermoScan® PRO 6000
- Thermometry Partnerships with more than 90 leading EMRs including Epic® and Cerner®
- Choice of leading SpO2 technologies: Masimo®, Nellcor® or Nonin®
- Add to integrated wall system for complete patient exam workflow
- Scale connectivity to Detecto, Health-o-meter® and SECA scales
- Mobile stand option includes work surface with integrated battery for extended usage

Welch Allyn® **Hillrom™**   FlexiPort® REUSABLE BLOOD PRESSURE CUFFS
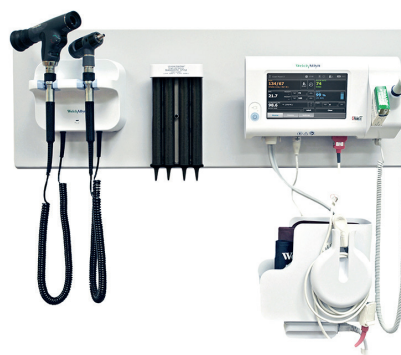

Affordable and easy to use, Welch Allyn FlexiPort Reusable Blood Pressure Cuffs offer all the advantages of FlexiPort technology—including simplified connectivity—in a dependable, durable design.

Features

- FlexiPort technology enables every cuff to be used as a one- or two-tube cuff
- Tested to withstand demanding clinical environments
- Latex-free material minimizes risk of allergic reactions
- Rotatable port, improves patient comfort and cuff durability
- Folded edge reduces risk of cuts and scrapes, maximizing patient comfort
- Meets all latest clinical guidelines for proper fit from AAMI and AHA
- Primary sizes are color-coded to make it easy to find the proper cuff size
- Three-year warranty

767 SERIES ANEROIDS

The versatile 767 Aneroid is the smart choice for accurate and reliable readings throughout your facility. Improved ergonomics and a new modern design make for an easy-to-use blood pressure aneroid, developed with staff and facility workflow efficiency in mind. Recessed, laser-engraved dial face with high-contrast pointer provides certified accuracy to reduce errors and improve patient care.

WEL7670-01 .... Aneroid with adult cuff, wall mount
WEL7670-03 .... Aneroid with adult cuff, mobile stand

DS58 HAND ANEROID

With gear-free DuraShock™ technology, you can count on the DS58 aneroid to remain in calibration longer than traditional aneroids, providing more accurate readings over time and a lower lifetime cost, helping to improve practice efficiencies and your bottom line.

- Gear-free DuraShock™ technology Certified accuracy to +/- 3 mmHg
- Laser-engraved dial face for accuracy
- Jeweled movement for long life
- Lifetime calibration warranty
- Latex-free for safety
- Thumbscrew bleed valve and ergonomic inflation bulb
- Unsurpassed reliability in a traditional, handheld design
- Designed to enhance comfort
- Withstands a 60" drop, exceeds AAMI's shock resistant requirement

WELDS58-11 .... With adult cuff and zippered case
WELDS58-MC .... With 4 sized cuffs and zippered case

DIAGNOSTIC SET, COAXIAL

Welch Allyn 3.5V Diagnostic Set with PanOptic Basic LED Ophthalmoscope, MacroView Basic LED Otoscope, one Lithium Ion Plus Rechargeable Power Handle, and Hard Case

WEL71-PM2LXU ....Diagnostic set

Welch Allyn® ### 3.5V NICKEL-CADMIUM RECHARGEABLE HANDLE

Includes #72300 battery. A choice of convenient rechargeable power sources that fit all the WelchAllyn 3.5 V instrument heads. Smooth, non abrasive knurled finish ensures a no-slip grip. Chrome-plated brass construction.

WEL71000-A

Welch Allyn® ### 3.5V LITHIUM ION RECHARGEABLE HANDLE

Twice the on-time, half the weight and size. Fits all Welch Allyn 3.5 V Instrument Heads. 120 minutes of on-time (compared to 60 minutes for standard handles). Low battery indicator, no "memory" effect. Includes AC charging module.

WEL71900

Welch Allyn® ### COAXIAL OPTHALMOSCOPE HEAD

- Halogen HPX lamp illumination for true tissue color.
- 18 unique aperture/filter combinations for greater versatility
- Polarizing filter virtually eliminates corneal blue filter
- Compatible with all existing Welch Allyn 3.5 V power sources
- Look for the traditional "flat-top" design you've come to trust

WEL11720-L .... Ophthalmoscope head only

Welch Allyn® ### PANOPTIC™ BASIC LED OPHTHALMOSCOPE

- Welch Allyn PanOptic Basic LED Ophthalmoscope; power handle not included
- 5X larger view of the findus vs. standard ophthalmoscopes in an undilated eye
- Digitally capture, store and share fundus images by combining with iFxaminer
- Greater working distance improves comfort for both practitioner and patient
- Dynamic focusing wheel allows continuous, smooth action and more precise control
- Hallogen HPX® lamp provides bright, white light
- Compatible with all existing Welch Allyn 3.5 V power sources

WEL118-2 .... Head only

Welch Allyn® MACROVIEW™ OTOSCOPE HEAD

- A nearly complete view of the tympanic membrane
- Better clarity and definition of landmarks
- The ability to adjust focus for variable ear canal length or farsighted eyes
- Lip grip for secure fastening and ejection of ear specula
- Fiber optics produce cool light with no reflections, no obstruction
- Twice the field of view and 30% greater magnification than traditional otoscopes

WEL238-2 .... MacroView Basic LED Otoscope
WEL238-3 .... MacroView Plus LED Otoscope

WEL52434-U .... Adult (4.25mm) Bag / 850

Welch Allyn® SPOT™ VISION SCREENER

The Spot Vision Screener is a handheld, portable device designed to help users quickly and easily detect vision issues on patients from 6 months of age through adult. Spot screens both eyes at once from a nonthreatening 3-foot distance. The touch-screen display allows for one-touch activation, simple management of patient data entry, and easy configuration for both vision screening and autorefraction applications.

Features:
- Supports AAP screening guidelines for early detection of amblyopic risk factors
- Automated screening provides thorough and easy-to-understand results
- Easy to use, easy to implement with minimal user training required
- Adequately powered for mass screening events
- Captures readings 97% of the time helping to screen otherwise difficult patients
- Wireless printing and WiFi-enabled for easy export of data
- Manual exports available via USB port
- Uses lights and sounds to help engage children

WELVS100S-B

Welch Allyn® RETEVAL-DR™ ELECTRORETINOGRAPH

The Welch Allyn RETeval-DR Electroretinograph is designed for healthcare providers who want to improve management of their patients with diabetes. In just three minutes, you can objectively screen for vision-threatening diabetic retinopathy (VTDR) wherever patients receive care. Welch Allyn RETeval-DR Electroretinograph enables efficient, comfortable, non-mydriatic screening for VTDR that improves patient compliance to help preserve vision in your patients with diabetes.

Features:
- No dilation required, enhancing patient comfort
- Short test time—only three minutes per patient
- No interpretation and minimal training necessary
- Immediate results provided on the device and in a PDF report
- Portable, handheld device goes wherever patients with diabetes receive care

LITTMANN™ CLASSIC III STETHOSCOPE

The 3M™ Littmann® Classic III™ Stethoscope offers high acoustic sensitivity for exceptional performance when doing general physical assessments. It features dual tunable diaphragms and an updated design that is easier to clean and maintain.

The 3M™ Littmann® Classic III™ Stethoscope is the latest version of the stethoscope that helps millions of medical professionals achieve their best. The Classic III stethoscope offers high acoustic sensitivity for exceptional performance, plus a versatile two-sided chestpiece with tunable diaphragms. The Classic III stethoscope is used by students and medical professionals alike to identify, listen to, and study heart, lung, and other body sounds for physical assessment, patient monitoring, and diagnosis.

Tunable diaphragm technology—a 3M invention—lets clinicians hear different frequency sounds by simply adjusting the pressure on the chestpiece. Hold the chestpiece with light pressure to hear low frequency sounds; press a little more to hear higher frequency sounds. This time-saving feature allows the healthcare provider to focus on the patient, while the non-chill diaphragm provides patient comfort.

Headset tension is easily adjusted for head size and comfort by squeezing together or pulling apart the eartubes. Snap-tight, soft-sealing eartips conform to individual ears for an excellent acoustic seal and comfortable fit. Eartips snap firmly onto the ends of the eartubes and, for safety, require a significant effort to remove.

Resilient next-generation tubing retains its shape and flexibility even after folding tightly into a pocket. It provides longer stethoscope life due to improved resistance to skin oils and alcohol, and is less likely to pick up stains. Next-generation tubing is not made with natural rubber latex, a benefit to sensitive medical professionals and their patients. And, to play its part in the protection of human health and the environment, the next-generation tubing does not contain phthalate plasticizers.

The Classic III stethoscope is made in the USA for consistent quality. It comes complete with large and small soft-sealing eartips, non-chill bell sleeve, and instructions.

Features:
- Two-sided chestpiece with tunable diaphragms on both the adult and pediatric sides.
- Single-piece tunable diaphragm is easy to attach, and easier to clean because its surface is smooth without crevices.
- Pediatric side converts to a traditional open bell by replacing the single-piece diaphragm with a non-chill rim.
- Next-generation tubing provides longer life due to improved resistance to skin oils and alcohol; less likely to pick up stains.
- Small tunable diaphragm is useful for pediatric, small, or thin patients; around bandages; and for carotid assessment.
- Stainless steel chestpiece is precision-machined into an aesthetically pleasing, less angular shape. The stem features open side indicator.
- Snap-tight eartips have a soft, smooth surface providing a comfortable acoustic seal and comfortable fit.

SE-1200 Express 12-channel ECG with Interpretation

- Large high resolution color touch screen
- Alphanumeric keyboard
- One-touch operation
- Enhanced weak signal detection
- Comprehensive filters & anti-noise technology
- Real-time ECG waveforms freezing and review
- Advanced Glasgow algorithm for automatic measurements and interpretation
- Built-in high resolution thermal printer with external USB printer (optional) support
- Extended printing
- Large internal memory which can be enlarged by USB flash disk
- Built-in data management with reports review
- LAN/Wi-Fi (optional) connections
- Bi-directional communication with SE-1515 Data Management System
- Multi-format reports export (optional)
- Barcode scanner support (optional)

CP 150™ ELECTROCARDIOGRAPH

The CP 150 combines the best traditional box ECG features (e.g. full-size printouts and clinical decision support with MEANS interpretation) with connectivity enhancements designed especially for today's primary care practices.

- ECG print previews can help save time and reduce paper costs
- Seven-inch color, touchscreen display for easy entry of patient data
- Optional wireless connectivity helps increase device mobility and utilization
- Optional spirometry lets you perform two tests with one device
- Optional DICOM compatibility enhances interoperability
- Optional adult and pediatric MEANS ECG interpretation software
- Three-, six-, or full 12-lead ECG preview options
- Battery operation lets you easily transport your device to the patient
- Simplified EMR connectivity without a complicated interface
- Instant-on powers the device up quickly to take an ECG at a moment's notice

WELCH ALLYN® DIAGNOSTIC CARDIOLOGY SUITE

The Welch Allyn Diagnostic Cardiology Suite now includes ECG and SPIROMETRY capabilities, helping you shorten the path to diagnosis for improved patient outcomes.

Features:
- Captures best 10 seconds of ECG data from memory, which helps reduce need for repeat ECGs
- ECG complies with ACC, AHA and HRS recommendations for adult/pediatric patients
- Easily access prior spirometry exams to monitor treatment plans over time
- Utilize one device for spirometry and ECG exams for a common workflow and setup
- ECG and spirometry applications launch directly from the EMR
- Instantly verify spirometry exam quality and test performance

IQECG™ DIGITAL ECG

The Midmark IQecg makes your job easier with a range of reviewing and editing tools to help increase productivity and efficiency. At the touch of a button, you can capture an abnormal ECG as it appears on screen, enhance the diagnosis with tools like zoom and electronic calipers, quickly edit statements and perform serial comparison.

Features include:
- Lightweight, portable design, weighing less than 11 oz.
- View and monitor live, 12-lead ECG in selectable formats on screen
- Interpret and analyze data for neonate, pediatric and adult patients via the Midmark 12-lead Resting Electrocardiogram Analysis Program
- Review and edit ECG results on-screen with free text or customizable quick edit statements
- Perform serial comparison with overlay of up to 4 ECG tests
- Save time and reduce data entry errors by populating patient information directly from your EHR/EMR software
- Facilitate paperless office strategy-eliminate costs of thermal paper and the hassles of scanning and filing patient charts

RIT4-000-0062 ....IQECG™ Digital ECG with Interpretive

IQSPIRO™ DIGITAL SPIROMETRY SYSTEM

The Midmark IQspiro Digital Spirometry System combines a digital spirometer with innovative software solutions that make it fast and easy to capture, interpret and retrieve patient information. Our digital spirometer also features correct patient positioning that can optimize testing and an eject lever that saves time and alleviates handling of used mouthpieces.
- View real-time Flow/Volume Loop and Volume/Time graphs with fully customizable parameters.
- Pre and post-bronchadilator testing with automatic interpretation.
- New eject lever alleviates handling of used mouthpiece
- Accurate and precise; meets or exceeds ATS 2005 Standards
- Lightweight, portable design weighs only 9 ounces
- Correct, ergonomic patient testing orientation
- Easy grasp, new T-shaped handle design for patient support and stability during testing
- Improved mouthpiece stability and protection with new easy-latch door design
- Easy to print full page reports on standard paper

SEMI-AUTOMATIC DEFIBRILLATOR

The AED Pro is designed for both basic and advanced life support. While it offers guidance to the BLS rescuer, it also provides more advanced capabilities to the professional rescuer. The AED Pro not only relays advanced CPR feedback, it's also a vital signs patient monitor that can be configured to the way you work.

- A three-lead cable allows basic monitoring using ECG electrodes.
- Flexible operating modes let the professional rescuer apply manual override to access more advanced capabilities, including heart rate displays, and to decide if and when to deliver treatment.
- A high-resolution auto-gaining LCD display keeps the ECG trace within a specific area, always displaying the gain, so the rescuer can easily see the patient's rhythm.

ZOLL AED 3 DEFIBRILLATOR

Enhanced Real CPR Help, featuring a full-color display with vivid rescue images, CPR cycle timer, and a large color bar gauge that shows CPR compression depth. RapidShock Analysis™ enables the industry's shortest rhythm analysis for more continuous life-saving CPR. CPR Uni-padz™ electrodes can be used on both adult and pediatric patients, so there is no need for two separate sets of pads. Cloud connectivity that can automatically report AED readiness. 5-year shelf life for pads and batteries increases readiness and decreases frequency of maintenance. Available in semi-automatic and fully automatic models.

DIAGNOSTICS

CAVICIDE1® SURFACE DISINFECTANT

CaviCide1, a multi-purpose disinfectant/decontaminant cleaner, can be used on hard, non-porous surfaces. CaviCide1 is effective in killing bacteria and fungi in 1 minute, including TB, Norovirus, HIV-1, HBV, HCV and many more. When used as directed, fragrance-free CaviCide1 will effectively clean and disinfect surfaces and can help reduce the risk of cross-contamination.

MET11-5024 .... CaviCide1, 24oz spray
MET11-5001 .... CaviCide1, 1 Gallon
MET11-5100 .... CaviWipes1, Small, 6" x 7"

CLOROX® PROFESSIONAL DISINFECTING BLEACH WIPES

- Kills 58 Microorganisms in 3 minutes or less.
- 30 second kill times on 32 bacteria
- 30 seconds to 1 minute on 19 viruses
- 1 minute on norovirus
- 3 minutes on C. difficile sporesm TB and fungi

CLX01308 .... 6.75" x 9" Wipes
CLX01309 .... 12" x 12" Wipes
CLX01310 .... 12" x 12" Wipe Refill Pack

CLOROX® PROFESSIONAL HYDROGEN PEROXIDE WIPES

Speed for Hard Surface Disinfection. Fast kill times on more than 40 microorganisms. If your wipe doesn't keep large surface areas wet long enough, it can lead to costly re-wiping. Clorox Healthcare® Hydrogen Peroxide Cleaner Disinfectant Wipes keep larger surfaces wet longer, enabling you to use fewer wipes for better value, less waste and less worry.
- 30 second to 1 minute contact times on most bacteria and viruses.

CLX01456 .... 6.75" x 9" Wipes
CLX01458 .... 12" x 11" Wipes
CLX01459 .... 12" x 11" Wipes Bucket Refill

SANI-CLOTH® PLUS SURFACE DISINFECTANT WIPES
- Germicidal Disposable Cloth
- Bactericidal / Virucidal / Cleans and Disinfects
- Ready-to-use disposable cloths are pre-moistened with bactericidal disinfectant
- For disinfection and cleaning of instruments and all hard surfaces such as counter-tops and equipment
- Effectively disinfects against: Influenza A2/HK, Hepatitis C, Respiratory Syncytial Virus (HRS), Methicillin resistant Staphylococcus aureus (MRSA), Vancomycin resistant Enterococcus faecalis (VREF), Escherichia coli (E.Coli), Pseudomonas aeruginosa, and HIV-1 (AIDS) virus, Herpes Simplex Type II and Salmonella
- Ideal for hospitals, health care facilities, first aid rooms, ambulances and other areas where avoidance of cross-contamination is essential
- Packaged in a convenient dispenser for easy access
- 6" x 6.75" wipe, 2 minute contact time is effective against enveloped / non-enveloped viruses, bacteria, TB, fungi, multi-drug resistant organisms and bloodborne pathogens2
- Designed to be compatible with hard nonporous surfaces and equipment.

PDIQ55172 .... Super Sani-Cloth Wipes 160/12ea/cs

GLUTE-OUT NEUTRALIZER FOR GLUTARALDEHYDE & OPA

Disposing of used disinfectants can be extremely dangerous as glutaraldehyde and OPA products remain highly toxic and biocidal even after 14 days of re-use. Improper disposal of disinfectants by pouring down a drain has proven to cause high levels of exposure for the clinician and is considered illegal in many regions. Glute-Out Neutralizer offers a solution to dangerous disinfectant disposal problems. Glute-Out deactivates glutaraldehydes and OPA by using a glycine powder base that neutralizes solutions in just five minutes.

CV-610-1045 .... 2oz bottle (Neutralizes 1 Quart)
CV-610-1099 .... 5oz bottle (Neutralizes 1 Gallon)

CIDEX OPA SOLUTION, DEVICE DISINFECTANT SOLUTION

EMPOWER® DUAL ENZYMATIC DETERGENT

EmPower® is used to pre-clean critical or semi-critical medical devices prior to terminal sterilization or high level disinfection. It contains two protease enzymes that offer the broadest cleaning action on a variety of protein soils. Inclusion of surfactants provides additional cleaning on carbohydrates, lipid and protein soils. Works fast to remove blood, tissue, mucous and other protein-rich bodily fluids from instruments.

- Dual-enzymatic detergent cleaner
- Gentle on instruments
- Less corrosive than distilled water
- Low-foaming formula is ideal for use in automated machines
- Fragrance free option for respiratory-sensitive users

MET10-4100 .... 3.8 Litre

EMPOWER® FOAM SPRAY

EmPower® Foam is used to pre-clean critical or semi-critical medical devices prior to terminal sterilization or high level disinfection. It is a ready-to-use, foaming dual-enzymatic spray that starts the pre-cleaning process by breaking down blood, tissue, mucus and other protein-rich bodily fluids from instruments. The foaming spray delivery system is ideal for use in the operating room, sterile processing, and other departments where instrument cleaning is not immediately available.

- Ideal for instruments with the presence of moderate to heavy organic debris
- Covers instruments, reducing splashes and spills
- Ready-to-use in a convenient sprayer
- Covers instruments to rapidly begin the cleaning process

MET10-4224 .... 24 ounce
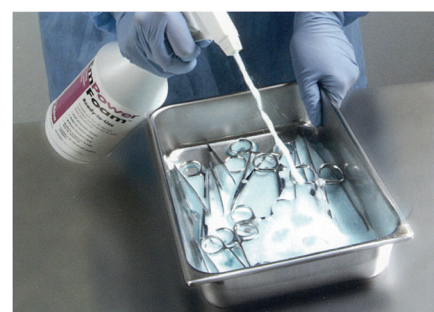

ENZYCLEAN PROTEASE INSTRUMENT DETERGENT

Enzyclean Protease Enzyme Detergent is specially formulated for use as a presoak or manual detergent.

The protease and amylase enzymes break down organic and inorganic soils, residues, films and deposits and ensures complete cleaning.

WEIEBL1HC ....3.78 Litre

CUTS-IT GEL INSTRUMENT PRE-SOAK

Clings to and dissolves blood, fat, tissue and other body fluids and keeps bioburden from drying on instrumentation.

Neutral pH, Non-corrosive, Phosphate-free, Biodegradable. Perfect for a transport gel.

Ritter® **M9D STERILIZER**

The Ritter M9D AutoClave Sterilizer, an economical option to the Ritter M9, offers easy, effective sterilization. One button starts the cycle and you must manually open the door within 30 minutes of completion to activate the dry cycle. This extra step is the only difference between the Ritter M9D and its fully automatic counterpart (shown below).

RITM9D-042................. M9D Sterilizer

Ritter® **M9 & M11 AUTOMATIC STERILIZER**

Today, more than ever, you need products that are reliable and simple to use. The Ritter M9 & M11 couldn't be easier and is time tested for reliability. You load it... set it... and forget it. Select your cycle and the time is set for you. Press "Start" and the Ritter M9 fills with the correct amount of water. Once the sterilization process is complete, the door opens automatically and quietly to dissipate the steam to give you fast drying time for your instruments. It's real convenience!

The Ritter M9 & M11 sterilizer also has easy front access for filling and draining and controls that are easy to understand. Programmable cycle features allow custom creation of different cycle parameters for special sterilization needs.

Programmable buttons allow you to change the following:
- Time (3-90 minutes), Temp (23-275 °F), Dry Time (0-60 minutes), Vent (slow or fast and two program buttons allow you to store the custom cycles.
- Pre-programmed sterilization cycle controls: Unwrapped (132°C or 270°F for 3 min), Pouched (132° C or 270° F for 5 minutes), and Packs (121°C or 250°F for 30 mins).
- The display Indicates cycle selected, cycle temperature and exposure time for selected cycle. During the cycle, it shows messages describing status of cycle. When the cycle enters sterilization mode and dry mode, remaining cycle time is displayed as well as temperature and pressure.

EZTEST® STERILIZATION MONITORING SYSTEM

Complete in office sterilization monitoring system - incubator, EZTest (25), English log book. Everything you need for effective monitoring of sterilation cycles in your office. Visual results in 24 hours.

SSP4145-SK/25B

DELTA STEAM BIOLOGICAL INDICATOR

- EZTest is a self-contained biological indicator (BI) for monitoring sterilization
- Steam, ethylene oxide, propylene oxide, hydrogen peroxide
- Bacterial spores on a carrier material packaged within a small, thermoplastic culture tube.
- Inside is a sealed-glass ampoule of specially formulated soybean casein digest culture medium containing a color indicator which turns a dramatic yellow when growth occurs.
- Easy-to use in-office; no laboratory transfer needed
- Dramatic visual results within 24 hours (48 hours for ethylene oxide)

SSP4145-BV5-100 Box/100

STERILIZATION

3M COMPLY™ STERIGAGE™ CHEMICAL INTEGRATOR

Chemical integrators are used for pack control which validates that the sterilant has penetrated to the point of placement in the pack and confirms that sufficient exposure conditions have been met. 3M™ Comply™ Steam Chemical Integrators consist of a paper wick and steam and temperature sensitive chemical pellet contained in a paper/film and foil laminate envelope of laminate materials.

- Moving front ink technology provides easy to read Accept or Reject result
- Can be used in all 250-275°F / 121-135°C steam sterilization cycles
- Response correlates with a Biological Indicator at 3 time/temperature relationships under ideal steam sterilization conditions

3M 1243B 100/Bag

COMPLY™ STEAM CHEMICAL INDICATOR STRIPS

3M™ Comply™ Indicator Strip enables pack control by validating that the sterilant has penetrated to the point of placement in the pack and confirming that sufficient exposure conditions have been met. Use in steam sterilization cycles.

EAR WASH SYSTEM

- Eliminates messy outflow by automatically dislodging, removing and disposing of cerumen
- Transparent tip seals tightly and directs outflow back to sink and away from you and your patient.
- You control and monitor suction, water temperature and pressure
- Safe - reduces typical side effects like vertigo, nausea and tympanic membrane damage
- Turn cerumen removal into a clean, quick, safe procedure with the first system to simultaneously irrigate and suction discharge using Hydrovac Action.

WEL29350 .... Ear Wash System
WEL29360 .... Disposable Eartips Pkg/25
WEL29330 .... Replacement Tubing (10')

OTOCLEAR® EAR WASH SYSTEM

Otoclear spray wash kit, manual, intermittent lavage
- Delivers greater volume compared to syringes or other manual devices
- Efficient design allows for two-handed procedure
- Built-in temperature gauge on bottle for water temperature

METRILUBE® INSTRUMENT LUBRICANT

MetriLube is an oil-based instrument lubricant that coats metal instruments to prevent spotting, staining, and rusting of surgical instruments and helps keep hinges working freely.

MET-10-3425................... 24 oz

INSTRUMENT LUBRICANT MILK

Instrument Lubricants inhibit rust and prolong the life of surgical instruments. Weiman® lubricants contain dual-purpose corrosion inhibitors that protect all types of metal instruments, including carbon steel. Do not interfere with steam sterilizing.

WEIT2 .... 1 Gallon

The PrimaTouch® Medical Examination and Procedure Glove line offers a high quality, comprehensive collection of gloves for every procedure requiring medical-grade hand protection.

As a focused single-use glove supplier, priMED is committed to staying on top of the latest glove trends and providing clinicians with the most cutting edge, single-use hand protection available.

BD INSYTE™ AUTOGUARD™ BC PRO WITH BLOOD CONTROL TECHNOLOGY

New blood-control technology proven to reduce the risk of blood exposure by 95%
- No clean up of blood spills
- No need to worry about stopping blood
- No add-on costs for clean-up supplies
- Push-button shielding technology proven to reduce needlestick injuries by 95%
- BD Vialon™ Biomaterial—softens up to 70% in the vessel, resulting in longer dwell times; reduces the chance of mechanical phlebitis by up to 50%
- No risk of exposure to blood-borne pathogens
- Due to dramatically less blood leakage at insertion,
- BD Insyte™ Autoguard™ BC can mean less potential cross contamination; no spills means there's no blood to get on gloves, clothing, shoes, bedding, floors, or equipment.

⊕ BD   INSYTE™ I.V. CATHETER

New Standard in I.V. therapy. When faced with the everyday challenges of infusion therapy, Insyte™ I.V. catheters deliver.

- Increases the ease of penetration
- Reduces the risks of infiltration
- Exhibits greater kink resistance
- Reduces the risks of phlebitis up to 50%
- Reduces I.V. restarts due to reduced complications
- Reduces the total I.V. therapy cost to use due to longer indwelling times

⊕ BD   INSYTE™ AUTOGUARD™ WINGED I.V. CATHETER

Protect from blood leakage

The BD Insyte™ Autoguard™ BD shielded IV catheter with blood control technology is clinically demonstrated to reduce the risk of blood exposure by 95%. BD blood control technology minimizes blood exposure, cleanup time and use of supplies associated with blood spills. BD Instaflash™ needle technology on the 20-G, 22-G and 24-G sizes incorporates a notched needle to improve first-stick success and reduce painful hit-and-miss insertions.

- No venous compression required during insertion
- Less mess and minimizes healthcare worker risk resulting from blood leakage
- Less blood leakage means less disruption during the patient's care

BD VERITOR® STREP & FLU TEST KIT

For Rapid Detection of Flu A+B & Strep
- Technology-verified Performance-Incorporates state of the art technologies that deliver results you can trust.
- Multiple Sample Types-Validated to be used with nasopharyngeal washes/aspirates, and nasopharyngeal swab in transport
- Convenient Kit Configuration-Full customized kit to test and delivery results in minutes
- Objective Results-Easy to read digital display eliminates subjective interpretation

Convenient Workflow Delivers Results in Minutes

Easy sample processing
Prefilled unitized tube facilitates workflow

Ready in minutes
Test device is ready to insert into reader 10 minutes after sample is added

Insert and read
Simple one-touch button readies the reader for test device insertion

Objective results
Once the test device is inserted in the reader, an objective, digital test result is displayed in 10 seconds

ZIP-IQ TT TEST TUBE CENTRIFUGE

- The LW Scientific Zip-IQ TT centrifuge is an impressive 6-place test tube centri-fuge for spinning blood, urine, and other fluids in 1.0ml to 15ml test tubes and microtubes, motor spins at 5,000rpm (2,500g) producing serum in as little as 5 minute

LWS06AD-15T3

BLOOD DRAWING CHAIR (PHLEBOTOMY CHAIR)

- Contoured padded seat and padded, arched backrest
- Padded flip arm and armrests
- Height adjustable armrest
- Comfortable, 2" padding throughout (5cm)
- Easy-clean, durable vinyl
- 1-1/4" square, heavy duty, all-welded, tubular steel frame
- Adjustable height and depth flip arm
- Flip arm positions in place when in use, then flips out of the way for easy exit
- Neutral Gray, powder-coated frame
- Adjustable foot levelers
- 400lbs. load capacity under normal use
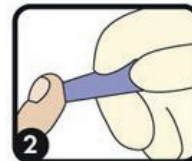

SOLS573

LORIS SAFETY LANCETS, STERILE

- Tri-bevel tip for virtually painless sampling
- Needle automatically retracts
- For capillary blood samples
- No lancing device required
- Pressure activated lancet ready to use
  - no loading needed
- Latex free
- 1.4 mm puncture depth

LER201-01 Cs/100

Directions for Use

1. Twist off protective cap.
2. Gently push the safety lancet down against test site to activate.
3. Apply pressure near the puncture site to obtain the required blood volume.

PRICK LANCETTER ALLERGY LANCETS

1mm point length to optimize skin test response. Sterile and individually wrapped. Disposable. One lancet used per puncture to eliminate antigen carryover.

BD VACUTAINER® PRODUCTS

BD provides a full offering of BD Vacutainer® Blood Collection Tubes in both glass and plastic. BD Vacutainer® Plus Plastic Tubes offer a safe method of blood collection. They also reduce the potential for tube breakage and specimen spoilage, thereby reducing the potential for exposure to bloodborne pathogens.

The BD Vacutainer® Push Button Collection Set is the only blood collection system with push button technology. The BD Vacutainer® Push Button Collection Set offers split second protection for that single moment which could potentially change your life. The push button safety mechanism instantly helps protect you against needle-stick injury.

BD Q-SYTE™ VIAL ACCESS ADAPTER

The BD Q-Syte™ Vial Access Adaptor Split Septum is a true split septum device with a design that can make a significant impact reducing CRBSIs in your organization. A split septum needleless access system has 64%-70% lower CR-BSI rates than mechanical valves. Purposefully simple in design and function, split septum devices eliminate the complexities of mechanical valves, and with them, the places that may harbor bacteria.

EYE WASH STATION AND SOLUTION

BIO MED WASH® is an all-natural, sterile first aid wash for cuts and lacerations, is the first product that replaces saline solution for washing abrasions and lacerations (saline is still preferred for deep intramuscular cuts). The product is invaluable in the initial washing of skin that has come in contact with irritating chemicals such as gasoline, pepper spray, tear gas or plant toxins; and the washing of eyes irritated by foreign particles, heavy smoke, dust or perspiration. BIO MED WASH contains 100% Bio-Logic Aqua® tissue-culture grade water, proven to have the ideal pH balance, hypotonicity and mild mineral nutrient content to maximize moisture absorption and promote healing.

RBW47085 ....Eyewash Station, 2 x 7oz. Cannisters, Mirror

PROTECTIVE EYE GLASSES

FACE SHIELD, FULL, DISPOSABLE

Pre-assembled, one-piece, face shield that includes an optical-grade lens, foam headband, and adjustable elastic strap to ensure a comfortable fit. Latex-free.

EARLOOP FACE MASK

Earloop masks in Level 1, 2, and 3

EARLOOP FACE MASK, WITH FACE SHIELD

Available with optically clear plastic wraparound face shield which provides protection for the face and eyes against pathogens contained in body fluids. Mask has fluid resistant shield. Latex-free.

PRIMED CHILD SIZE FACE MASK

Child Size Face Mask with earloops is soft, non-irritating and easy to breathe through. The dye free mask is not made with natural rubber latex and is comfortable to wear for pediatric size patients.

3M QUALITATIVE FIT TEST KIT

3M Respirator Fit Test Kits can be used with any particulate respirator to test face mask to face seal fit. The 3M Fit Test Kit can help satisfy regulatory requirements for face mask fit testing. Available in either a bitter or sweet test solution kit. Simply spray the solution into the hood environment. If the wearer does not detect the test agent`s taste, an acceptable respirator fit has been demonstrated. The 3M Respirator Fit Test Kit can fit test approximately 150 employees with the included supplies.

Kit Includes:
- 55mL Sensitivity Solution   - One collar assembly (FT-15)
- 55mL Fit Test Solution   - Two sets replacement nebulizer inserts
- Two nebulizers (FT-13)   - One hood (FT-14)
- Laminated instruction book (English/Spanish/French/Portuguese)

COVER YOUR COUGH COMPLIANCE KIT

Cover Your Cough (CYC) Compliance Kits hold an assortment of personal protection equipment in a convenient and attractive dispenser. Kit 101 holds two boxes of earloop face masks, one - two boxes of facial tissue, and one hand sanitizer bottle or hand sanitizing wipe canister (consumables not included). The sign holder is vertical and a variety of signs can be downloaded and printed from www.bowmandispensers.com. Proper and consistent use of the products in this dispenser reduces the chance of spreading infectious bacteria and viruses, such as those found in influenza and the common cold. CYC Complaince Kits are ideal for use in public waiting areas, offices, and lobbies. 18" W x 59" H

Kit 101 includes the following products:
- BOWMAN® Respiratory Hygiene Station (RS001 0512)
- BOWMAN® Floor Stand (KS010-0412)
- BOWMAN® 8.5 x 11" Sign Holder - Vertical (MP-070)

TSK STERiGLIDE™ CANNULA

The biggest advantage of cannulas over needles is the reduced risk of bruising during filler injections. This advantage has resulted in a rapid adoption of the cannula technique worldwide, making cannulas the product of choice for selective procedures, e.g. the tear through region. Other advantages of cannulas include the ability to treat a larger area with only one injection point, better comfort, less trauma, and more acceptability by the patient. After TSK's first cannula introduction with the CSH Cannula, TSK introduced their award winning STERiGLIDE cannula in 2012. The STERiGLIDE outperforms any other cannula available and remains to lead the market as the golden standard.

- Patented Dome shaped tip, Nearest to tip filler delivery
- Proprietary surface treatment
- Clear side-port marking
- Introducer needles included
- ULTRA Thin Wall
- Safety PRC hub
